Western Coal Industry Asks More Federal Aid

OTTAWA, Ont. (cp) — More federal help is needed urgently for the dwindling Western Canada coal industry, the Commons resources committee was told recently.

Frank Aboussafy, president of the Crows Nest Pass Industrial Planning Board, said development of coal-burning electrical power could be useful for the future.

"But there is an emergency in the coal situation today and help must come from Ottawa today."

"Something must be done more urgently than the development of thermal power, which would take from two to four years."

"By that time we might have no more coal industry. We would have only strip mining, which does not employ men."

Mr. Aboussafy suggested that federal authorities are not making the best use of subventions—treasury assistance on coal freight rates — to get Alberta coal into the northwestern Ontario market in competition with U.S. coal.

Not Much Chance

W. Uren, chairman of the Dominion Coal Board, said that under present conditions there is not much chance for Western Canadian coal making further inroads into this market.

He said Canadian coal needs better preparation for market and

operators must live up to specifications of the coal they sell.

Mr. Aboussafy said Canadian coal "should have the preference."

"In a free enterprise economy I don't know how the coal board can give the consumer something he doesn't want," Mr. Uren replied.

He said he could offer no immediate solution to the Western problem. He had been advising operators to concentrate efforts on capturing thermal power markets.

Board Gloomy

Edward Boyd, Western Canadian president of the United Mine Workers of America (lnd.), said "we feel that the position of the coal board is one of pessimism or of a gloomy nature."

He urged that the UMW have a representative in the board—whose function is the development of the coal industry.

Mayor Aboussafy Is Summoned To Ottawa

Mayor Frank Aboussafy of Coleman president of the Crows Nest Pass Industrial Planning Board, left Coleman Saturday, July 26th for Calgary, where he boarded a TCA plane enroute to Ottawa. He was one of four men summoned to Ottawa to appear Monday, July 28 before the Commons committee on mines, forests and waters.

Mr. Aboussafy, with the other three Albertans, Tom Mackie of Drumheller; Henry Sherwood of Camrose and Edward Boyd of Calgary, who are officials of the UMW, will be requested to give opinions in connection with the expenditure estimates of the Dominion Coal Board.

Mr. Aboussafy plans to bring up the distressed labor conditions in the Crows Nest Pass area and is well prepared with information on industries that are feasible for the Crows Nest Pass district that would ease the situation in the distressed coal fields.

The Industrial Board in the Pass have been urgently backing the export of gas from Savannah Creek to the United States through British Columbia to Kingsgate.

Allowing the export of gas would mean the almost immediate construction of a sulphur plant west of Coleman, which in turn would lead to other industry in the district. This alone would greatly ease the unemployment situation in the Pass.

The board have also suggested that a federal penitentiary be built in the Fernie, B.C. district which during construction would give employment and when completed would ensure a steady payroll for some 150 men, greatly adding to the economy of Fernie, which suffered a great set-back when the coal mine there was shut down this spring.

Spring, claims tradition, is the time when the sap runs. Spring warns the Canadian Highway Safety Conference, is also the time when the sap walks and drives, so he on the lookout for him.

Coleman Woman Passes July 7

Mrs. Josephine (Joyce) Prowski of Coleman, passed away in the General Hospital in Calgary on July 7th following a period of ill health.

Mrs. Prowski, 47 years of age, was born in Poland in 1911 and came to Canada in 1922, settling in Coleman in 1925, where she married Alexander S. Prowski.

She resided in Coleman until the time of her death. She was a member of the Catholic Faith.

Requiem High Mass was celebrated at St. Mary's Cathedral in Calgary on July 11th 10 a.m. and interment followed in the cemetery.

TV Booster Station For Pass Area

Dr. Lawrence E. Kindt, Member of Parliament for the Macleod constituency, is advocating the establishment of a television microwave booster for the Crows Nest Pass and adjacent areas, and he has approached the Minister of National Revenue at Ottawa on the subject. Following is the text of the letter sent to the Hon. G. C. Howland by Dr. Kindt:

I should greatly appreciate if your department would undertake the establishment of the necessary electronic devices in order to bring TV to the people of the Crows Nest Pass and adjacent areas.

This matter has been discussed with Mr. William Richardson of your engineering staff and it would be appreciated if the necessary engineering work could be done as soon as possible. The Crows Nest Pass area embraces some ten or fifteen thousand people who are virtually without the benefits of TV reception.

In discussing this with members of your department, estimates from \$60,000 to \$100,000 have been given as the probable cost and the time required for the installation up to two years.

I sincerely hope that some way may be found to shorten the time when this service can be extended to the people of the Crows Nest Pass.

Construction Work on Streets And Walks is Progressing

Town crews in Coleman under the supervision of foreman John Kinnear, are doing an extensive road paving program on streets in Coleman this week.

The workmen are spraying many of the streets in Coleman with a heavy coating of asphalt and then laying a coating of fine gravel over top of the asphalt to give the streets an excellent topping of seal coat.

Meanwhile other work crews of the Department of Highways are making good progress on the new sidewalk being built on both sides of the cut at the east end of Coleman on the No. 3 Highway.

The workmen have built forms and after laying a heavy coating of gravel on the bottom of the forms have poured concrete in the forms on the north side of the highway. The walks which are four and one-half feet in width, have been reinforced with strips of old cable laid in the concrete.

The men are now working on the sidewalk on the south side of the highway. The sidewalks are several hundred feet in length and will serve pedestrians living east of the cut coming and going to

Aid Project For Miners

EDMONTON, Alta. (cp) — The Alberta government has launched a special work project to aid unemployed coal miners in the Coleman area in the Crows Nest Pass.

About 35 men, between 50 and 65 years of age, started work last week setting up tourist camp sites, stringing power lines and carrying out general forest protection work in the Coleman area.

John Ferguson of the industries and labor department, chairman of the rehabilitation committee for unemployed miners, says the government has issued a \$35,000 warrant covering salaries for the four month project.

Marion Fauville.

The urge in spring is to get in the old jalopy and let'er go. Spring, remember, inevitably follows winter, the season that inevitably wrecks highways and leaves them rampant with unsupposed holes, bumps, icy sections. Spring is the time for careful watchful driving, warns the Canadian Highway Safety Conference.

Canada Conversion Total Results Now \$1,378,000,000

With returns from investment dealers and chartered bank branches relatively incomplete, the Bank of Canada announced this week that Victory Loan bonds totaling \$1,378,000,000 had already been converted into the new bonds. This impressive total has been reached in one week since the surprise announcement of the Canada Conversion Loan of 1958 in the House of Commons on July 14th by the Minister of Finance, The Hon. Donald M. Fleming.

Dealers and banks alike report that their efforts so far have been devoted almost entirely to spreading the details of the exchange offer to their clients and that the coming week should bring a flood of orders. It is interesting to learn that the "man in the street" as well as a majority of professional investors, such as life insurance companies are converting into the 25 year 4½ per cent bonds, thus indicating confidence in the value of long-term government bonds.

Orders continue to flow in from the "exempt list" name as many investment officers returned from holidays in order to ensure prompt attention to the conversion offer.

The Dominion Life Assurance Company of Waterloo, Ont., has converted \$2 million Victory Bonds for new long bonds.

The Manufacturers Life Insurance Co. of Toronto which last week converted its entire holdings

of Victory Bonds, yesterday purchased a further \$2,150,000 for conversion.

A fire and casualty company—Western Assurance Company of Toronto, has converted \$500,000 into new long bonds.

Most church funds regard the conversion loan highly as evidenced by the action of the Synod of the Diocese of Toronto (Anglican) and the United Church of Canada, both of which have taken appropriate action.

Corporate pension funds are taking advantage of the offer with Canadian Pacific Express of Toronto, Lever Bros. of Toronto, Canadian Canneries Ltd. of Hamilton, and Dominion Foundries & Steel Ltd. of Hamilton reporting their transactions completed.

Trust General du Canada, Montreal, has converted \$1,799,000 into new bonds.

Waite Anstel Mines Ltd. of Toronto has converted \$1 million.

Interest in the offer from the United States is reported to be keen. American Automobile Insurance Company of Newark, N. J. has converted \$1,050,000 while The American Insurance Company also of Newark, has arranged to move into \$1,733,000 of long bonds.

The Toronto - Dominion Bank Pension Fund has converted its eligible Victory Loan bonds into 25 year 4½ per cent bonds.

Auto Dare Devils To Appear At Blairmore

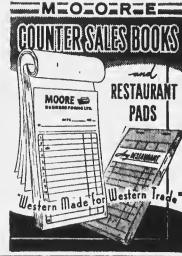

Intentional destruction is just a day's work to the Dare Devils, and the daring, astounding, roaring, and the soaring destruction contest of automobiles will be one of the feature attractions of the Canadian Auto Dare Devils, to be seen here on Thursday night, August 7th, at the Blairmore Ball Park Racetrack in Blairmore. The famed Canadian Stuntmen specialize in crash roll-overs, ice wall crash, dive bomber, head on collisions, and T-Bone crashes, destroying automobiles is just a day's work to them.

Spectators will declare that the object is to "Suicide Yourself" along with the car, but with a sense of know-how developed with long and, sometimes, bitter experience, these stuntmen usually remain unscathed while ramming each other head on in participating in crash roll contests. In the T-Bone crash the odds are a little higher for injuries. When one drives a car up a ramp and sails through the air to deliberately crash into another car some 15 to 20 feet away, one should start with the expectation of cuts, bruises, broken bones, or even serious injury. However regardless of the consequences and the danger, the thrills involved in this

"destruction derby" seem to compensate to the Dare Devils for the chances taken.

In addition to this "mechanized mayhem" local fans will witness exhibitions of precision driving, motorcycle acrobatics, a famous "slide for life" and the thrill of a life time in the much applauded Nerve - Packing Ramp-to-Ramp thriller from all angles!

The appearance here of the death defying Canadians is presented by The Town of Blairmore and the troupe uses 1958 Chevrolet Delray automobiles. The show gets underway at 8:30 p.m. on the evening of Thurs., Aug. 7, at the Ball Park, Racetrack under the brilliant track lights supplied by the huge generator carried by the Canadian owned and produced Spectacle.

Canada Conversion Loan

During the war, many people bought Victory Bonds. They did so partly to help the war effort and partly, too, because it seemed a sound way of investing savings at a reasonable rate of interest.

Down through the years, millions of Canadians have kept their Victory Bonds, clipping the coupons every so often and feeling secure in the knowledge that a modest nest-egg lay in reserve, to be used in case of emergency, to help pay for the children's education, or to help them enjoy their own retirement.

Last week, the government issued an invitation to exchange old bonds for new ones of the Canada Conversion Loan. The reason it did so was that five of the old Victory Loans will mature over the next few years. Rather than wait for each, in its turn, to fall due, it

seemed more sensible to refund all five at the same time, by means of a single new issue.

No one, of course, is compelled to accept the government's offer. It is a matter for each person owning a bond to decide for himself. But because a rate of interest higher than on the old Victory's is offered, and because the other basic attractions of government bonds remain unchanged, it seems likely that most people will accept. Within three days of the announcement over \$1 billion of the bonds had been converted.

Experts in money matters say that besides refunding the old debt, the new Canada Conversion Loan will also stabilize many factors affecting the borrowing of funds and clear up many uncertainties which now add to the difficulties of bond financing. This should make it easier for municipalities and other borrowers to obtain the new money they must have in order to pay for the growth of essential services.

This will come as welcome news to cities, towns and villages, many of whom have found it difficult in recent months to sell their own bonds.

**Slow Down
And Live
Urge P. M.**

Ottawa, Ont. — Prime Minister Dieffenbaker has called for the elimination of the "in-a-hurry" driver from the highways of Canada.

In a letter endorsing the continent-wide "Slow Down and Live" campaign, currently being sponsored in Canada by the Canadian Highway Safety Conference, Mr. Dieffenbaker wrote, "I am particularly anxious to join with Canadians in this effort to eliminate the driver who disregards his own well-being and the safety and rights of others in his selfish and hazardous driving to make all possible speed to his destination."

"I appeal to the citizens of Canada, and as strongly to our our visitors, to exercise the care and consideration vital to highway travel."

"Slow Down and Live", a campaign aimed at controlling the "in-a-hurry" driver, is held during the summer vacation months in Canada, the United States, Puerto Rico and the United Kingdom.

Here are the

FACTS

about exchanging your
3% wartime Victory Bonds

1. What is the Canada Conversion Loan of 1958?

It is an offer to replace all unmatured 3% wartime Victory Bonds with new 25-year 4 1/4% Canada Conversion Bonds. (Other bonds of shorter term, bearing interest rates of 4 1/4%, 3 3/4% and 3% are also available.)

2. Why is the Government making this conversion offer?

In order to reorganize the national debt on a longer-term basis and thus reduce the volume of Government refinancing over the next few years. There is widespread public and business agreement that this is a sensible idea and will help protect the soundness of the Canadian dollar.

3. What interest will I receive on the new bonds?

On the 25-year bonds the interest rate is 4 1/4%—this is 50% greater than the old Victory Bond rate. The increase on the 14-year and the 7-year bonds is also substantial.

4. As a Victory Bond holder, will I be required to make any additional payment?

No. On the contrary, you will receive an *immediate* cash adjustment.

5. Do I have to convert my Victory Bonds?

You may, if you wish, hold your Victory Bonds until maturity and on the due date you will be paid their full face value. The Conversion Loan offer is open only to Victory Bond holders; and the "right" to convert gives Victory Bonds a special value until the offer expires. This is because there are many people trying to buy them in order to invest in the new bonds.

6. What will be the total of my cash adjustment?

It will depend on the type of exchange. For example, a \$500 8th Victory Bond exchanged for a \$500 Conversion Bond paying 4 1/4% will give you \$8.75 in cash immediately. This includes earned interest.

7. Does this offer apply to Canada Savings Bonds and other Government of Canada Bonds?

No. This offer is limited to unmatured wartime Victory Loan Bonds only.

8. What steps should I take if I am away from home on vacation and wish to take advantage of this offer?

You should write immediately to your bank, investment dealer, stockbroker, trust or loan company, requesting literature and application forms.

9. Does it matter that the Victory Bond I hold is very small?

Every holder of a Victory Bond, even though the amount held may be only \$50, should take advantage of this offer. It is in his best interests as well as in the best interests of Canada.

10. How long is this offer open?

Until September 15, 1958, but it is to your advantage to convert as quickly as possible and have the benefit of the immediate cash adjustment.

11. Where can I exchange my Victory Bonds?

At any bank, investment dealer, trust or loan company, or through your stockbroker.
